REPORT & ORDINANCE

Honorable Mayor James E. Dyer
Honorable Members of the Common Council

Re: Water Rate Increase

The committee to review the need for water rate increases met on June 5, 1986 and again on June 10, 1986.

Present at the 6/5/86 meeting were C. Torcaso, P. Hadley, G. Eriquez, W. Buckley D. Setaro and B. Friscia. Mr. L. Charles attended ex-officio as a member of the Common Council.

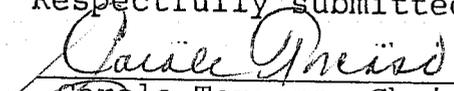

Messers Buckley and Setaro discussed the present rates as they related to the budget for the Water Dept. Mr. Buckley explained that in order to break even a \$395,000 increase in rates was essential, and did not provide for Capital improvements that would lead to degeneration of the existing system.

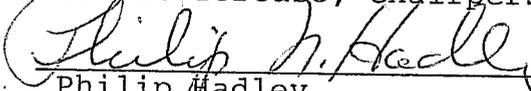

The committee asked that Messers Buckley and Setaro calculate 3 formulas for developing the rate structure: 1. Using an across the board increase of 18% - 9% - 9%. 2. Hold 5/8" meter at present rate and increase other meters at the 18% - 9% - 9% rate increase. 3. Using a non-declining rate formula to charge all users the same

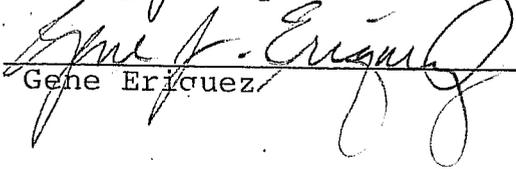

At the meeting held on 6/10/86, C. Torcaso, P. Hadley, G. Eriquez, W. Buckley, D. Setaro, B. Friscia and E. Gottschalk were in attendance. Several exhibits of revenue producing methods were presented to the committee and discussed. (copies attached).

Subsequent to extensive discussion Mr. Eriquez moved to recommend that the Water rates be increased for the next 3 fiscal years utilizing the method detailed (for metered users only) on Exhibits 1, 1A and 1B for Section 21-46 of the Ordinances and that the same level of increase as in Section 21-46 noted above be applied to Section 21-42 for non-metered accounts; for section 21-47 for hydrant and fire use; and Section 21-49 for tank truck use. Motion seconded by Mr. Hadley and was passed unanimously.

Respectfully submitted

COMMON COUNCIL

JAMES E. DYER, MAYOR

June 12, 1986

REPORT

Honorable Mayor James E. Dyer
Honorable Members of the Common Council

Re: Sewer Rates

The committee appointed to review sewer rates, met on March 13, May 28 and June 10, 1986. In attendance at each meeting were Comptroller D. Setaro and Supt. of Public Utilities William Buckley. Also in attendance at the June 10 meeting were Assistant Corporation Counsel Eric Gottschalk and Director of Public Works Basil Friscia. Councilman Esposito was excused from the June meeting as he had a prior commitment.

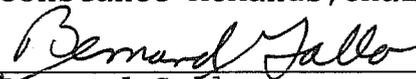

After much discussion, the committee was of the opinion that sewer rates based on water usage would be a more equitable means of financing the sewer budget than would the present flat rate. Mr. Setaro & Mr. Buckley reported that the present flat rate would have to be increased to \$64.00 per unit in order to balance the budget adopted by the Common Council for fiscal year 1986-1987.

The average homeowner, based on an estimated average usage of 22,000 gallons of water would pay approximately \$58.00 if charges were based on water use.

Councilman Gallo moved to recommend to the Common Council that sewer rates be established by using 90% of the metered water gallons at a charge of \$.72 per thousand gallons with a minimum charge of \$10.00 per semi-annual billing. Water users not metered but with sewers would be billed a flat rate of \$64.00 annually. Sewer users who do not have City water would be billed \$58.00 annually. Bills in all cases would be mailed semi-annually, seconded by Councilwoman McManus. All in favor.

Respectfully submitted

Constance McManus, Chairperson

Bernard Gallo

ORDINANCE

CITY OF DANBURY, STATE OF CONNECTICUT COMMON COUNCIL

Be it ordained by the Common Council of the City of Danbury:

THAT the Code of Ordinances of Danbury, Connecticut is hereby amended by the addition of a new section to be titled: Section 16-32. Sewer Use Charges, which said section shall read as follows:

Sec. 16-32. Sewer use charges.

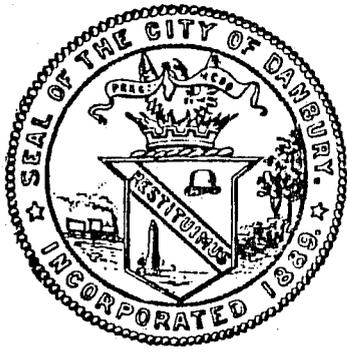

- (a) There is hereby established a sewer use charge applicable with respect to all bills rendered on or after the effective date hereof to all sewer customers provided with metered city water service. Said charge, established in accordance with criteria contained in Sec. 16-27 of the Code of Ordinances, shall be determined in accordance with the following formula:

$$\text{ANNUAL SEWER USE CHARGE} = \frac{0.9 \times A \times \$0.72}{1,000 \text{ gallons}}$$

Where "A" equals the volume of water, as measured through the customer's water meter, used during the previous four (4) billing quarters.

Notwithstanding the prior provisions of this section the minimum annual sewer use charge shall be twenty (\$20.00) dollars.

- (b) There is hereby established a sewer use charge applicable with respect to all bills rendered on or after the effective date hereof to all sewer customers provided with flat rate city water service. Said charge, established in accordance with the criteria contained in Sec. 16-27 of the Code of Ordinances, shall be fifty-four (\$54.00) dollars per unit.
- (c) There is hereby established a sewer use charge applicable with respect to all bills rendered on or after the effective date hereof to all sewer customers having no city water service. Said charge, established in accordance with the criteria contained in Sec. 16-27 of the Code of Ordinances, shall be fifty-eight (\$58.00) dollars per unit.
- (d) A sewer unit shall represent the annual sewer use for a single-family residence. An additional sewer unit shall be assessed for each additional residence within any dwelling. A fractional sewer unit shall be assessed for a portion of a dwelling which, in the
