Re: Request for sewer extension @ 8 Rose Street - June Council Agenda item #11

Dear Mayor and Council:

In accordance with your request for a 30 day report in the above matter, we advise you as follows:

The procedures for extension of water and/or sewer mains are governed by the Code of Ordinances, as referenced in correspondence from the City Engineering Department that also accompanies this letter. Included in the process is compliance with the commonly adopted "eight steps", ensuring the submission of all relevant information and papers.

The application submitted to you is reviewed by the Engineering Department, then acted upon by the Planning Commission. Once positive reports are issued to you by the above referenced, this office will accept, review and record or file legal documents, including easements and other instruments of rights and conclude the main extension once all documentation is reviewed and found in order.

Subsequently, the petitioner will be authorized to hook into the system (water or sewer) in adherence to standard connection and extension practices.

Please do not hesitate to contact us with any questions or concerns.

Very truly yours,

Laszlo L. Pinter  
Deputy Corporation Counsel
