CITY ENGINEER

November 17, 2010

Honorable Mark D. Boughton, Mayor
City Council
City of Danbury
155 Deer Hill Avenue
Danbury, CT 06810

Dear Mayor Boughton and City Council Members:

Storm Drainage and Roadway Improvements (Assessment Method)
Hayestown Heights
Project No. 09-12

In response to a request from various property owners to improve the existing storm drainage problems and road conditions on their private road, the City Council had referred the request for Hayestown Heights road improvements to our office as a possible assessment project. The mail survey soliciting input from those property owners who would benefit from the storm drainage and roadway improvements to the above mentioned area has been completed.

The results of this survey were compiled on November 15, 2010 with the following results:

Comparison of results by number of lots:

Yes -----	0 (0.00 %)
No -----	21 (91.30%)
No response -----	2 (8.70 %)
	23 Total number of lots in survey

A color-coded map showing how the owners of the lots that would benefit voted has been attached.

Hopefully, this information will assist you in your deliberation. Kindly review the above results and determine if this project should be sent to a public hearing for further discussion or voted down as it stands.

If you have any questions, please feel free to contact me.

Very truly yours,

Farid L. Khouri, P.E.
City Engineer
