Danbury, Connecticut

RE: Donation to Still River Greenway from Bedoukain Research

Dear Mayor Boughton and Members of the Council:

The City of Danbury has recently received a donation from Bedoukain Research, in the amount of \$2,500, for the Still River Greenway.

This donation is a result of the efforts of our consultant (Jack Kozuchowski) in recruiting "Still River Greenway stewards" for the long term promotion and maintenance of the Greenway.

Each steward has been recruited to adopt a section of the Greenway or to adopt a function that will sustain the Greenway over time. Bedoukian Research, a long time supporter of this Greenway, is donating this funding to adopt the new native garden zone at the entry to the Greenway (it will be named "The Bedoukain native garden").

I respectfully request that the City Council accepts this donation.

Respectfully Yours,

Scott LeRoy
Director of Health & Human Services

Mr. Scott Leroy, Director of Health
155 Deer Hill Avenue
Danbury Connecticut

Dear Mr. LeRoy:

I have recently met with your consultant, Mr. Jack Kozuchowski, regarding your current initiative to promote and sustain the Still River Greenway through corporate and environmental sponsorships. As a long time partner of the City of Danbury and the Still River Alliance, Bedoukian Research is happy to donate \$2,500 to install a native habitat demonstration garden at the main entrance of the Greenway.

I offer this donation, specifically earmarked to the Still River Greenway continuing appropriations account and subject to acceptance by the Danbury Common Council

Respectfully Yours,

Robert Bedoukian

Bedoukian Research
