Enjoy the art of beading! Following a few basic techniques, create a unique necklace or bracelet with your own distinctive design or mother/daughter teams can create matching projects.

Choose from a selection of colorful gemstone beads and a combination of other beads including bone, shell, metal, resin, and glass. You'll learn a simple knotting technique using different colors of fine cord. If you like, bring along any special beads you might have to use in addition to those provided.

Instruction provided by local artist and craftsman Katie Stevenson.

Free. REGISTRATION REQUIRED online at danburylibrary.org, click on "Events" or call 203-797-4527.
