Dear Susan:

The current political climate and reduction in government funding of social services has placed a great strain on the area's charitable organizations. Unfortunately, those in need of services do not decrease in numbers in response to budgetary cuts.

These organizations, in a large part, serve as the building blocks or foundation of our community. Without their strength and health, the Greater Danbury area would not be the vibrant community that it is.

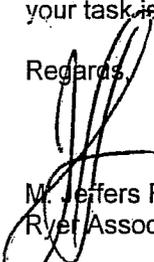

Boehringer Ingelheim Pharmaceuticals has been a long time supporter of community needs; supporting literally hundreds of area programs and organizations. Ryer Associates, while on a much smaller scale, also supports the organizations and values that make our community great.

While Boehringer Ingelheim Pharmaceuticals and Ryer have long been committed to supporting the organizations and programs that promote diversity and health within the community, extraordinary circumstances have lead to Ryer Associates' ability to provide additional funding to some of the area's support organizations. Working in partnership with Boehringer Ingelheim Pharmaceuticals, proposals have been requested from several organizations for the use of donated funds toward community diversity and health.

We have received and reviewed many worthy proposals and are pleased to inform you that the Senior Center has been selected as a recipient of \$10,000 to be used in the manner discussed in your letter and proposal dated August 26, 2004.

We thank you for your dedication to the community and the people you serve. We recognize that your task is not an easy one and wish you good fortune going forward.

Regards,

M. Jeffers Ryer
