The Connecticut General Assembly has revised Sections 8-3i and 22a-42f of the General Statutes of Connecticut to require that persons or entities filing applications with the City of Danbury Zoning Commission, Planning Commission, Zoning Board of Appeals or Inland Wetlands Commission (“EIC”) concerning any project on any site that is within the aquifer protection area or watershed of a water company provide written notice to the Commissioner of the Connecticut Department of Public Health (“CTDPH”). This new notice provision to the Commissioner is in addition to the required notification to the water company. Said notifications shall occur no later than seven (7) days after the date of the application. Required notification to the Commissioner and water company is the responsibility of the applicant.

The Public Drinking Water Source Protection Areas are delineated on the State of Connecticut Department of Public Health Map (“Map”) available for review at the City of Danbury Permit Center, City Hall, 155 Deer Hill Avenue, Danbury, CT.

The Commissioner of the CTDPH has prescribed the following Notification Process format:

1. Refer to the Map available at the Permit Center to determine whether the project falls within a public water supply aquifer protection area or watershed area
2. Go to the CTDPH website at http://www.dph.state.ct.us
3. Click on “Programs and Services”
4. Click on “D” and then “Drinking Water Section”
5. Click on “Source Water Protection” on the right hand side menu
6. Follow the link to the Notification Process
7. Submit the form by clicking on the “submit” button

PLEASE be advised that the City of Danbury will require verification of submission of the notice to CTDPH and water companies as part of the completed land use application. A copy of the submitted form(s) is acceptable.
