(2) If the property is served by a septic system, the applicant should check with the Danbury Health Department prior to submitting an application for variance to be sure the proposed activity will be allowed under Health Department regulations. Also, if there are any wetlands or watercourses on the property, the applicant is advised to contact the Danbury Health Department to determine if Environmental Impact Commission approval will be required for the proposed activity.

(3) If this variance is granted, you will receive a letter and variance certificate by Certified Mail. This variance certificate must be filed on the land records in the Town Clerk's office for the variance to be in effect.
